

## We Want Your Feedback!

The Chester County Library System is considering a subscription to Morningstar Investment Research Center, an easy to navigate database designed for libraries to help patrons meet their investment goals.

We have arranged for a trial of this database and are inviting all of our patrons to use it as much and as often as you'd like through August 19, 2018. Please remember, **this is only a trial and a future subscription is not guaranteed.**

When you're done exploring, please tell us what you think by emailing [mlynch@ccls.org](mailto:mlynch@ccls.org). We will use your feedback to help us determine whether or not to add this database to our collection. Visit <http://www.ccls.org/196/Databases-by-Name#M> and login using the username **chester** and password **library**. We look forward to hearing what you think!
